Print Menu

The screenshot shows the CDC Diabetes Atlas interface. On the left, a sidebar contains buttons for 'Legend Settings', 'Print Menu', 'Save Image', 'Download Data', 'PowerPoint', 'Methods', 'How to Use this Report', and 'Instant Atlas Help'. A red arrow points to the 'Print Menu' button. The main area displays a map of the United States with a color-coded legend for diabetes prevalence (0-6.5, 6.6-8.0, 8.1-9.4, 9.5-11.1, 11.2+). A 'Print Preview' window is open, showing options to 'Print full screen', 'Rescale to fit page', 'Resize to fit page', 'Print As Vector (best quality)', and 'Print As Bitmap (supports transparency)'. It also has checkboxes for 'Show Buttons', 'Show Images', and 'Show Background'. A blue arrow points from the 'Print Preview' window to a data table below.

	County	State	Indicator	Lower Limit	Upper Limit	Number
●	Abbeville County	South Carolina	13.2	11.0	15.6	2,451
●	Acadia Parish	Louisiana	9.6	7.8	11.7	4,008
●	Accomack County	Virginia			14.8	3,582
●	Ada County	Idaho			7.6	18,626

When you click on the Print Menu button the Print Preview window will pop-up. Check the boxes to show buttons, images, or background.
